

INTRODUCING ANOTHER NEW
PRODUCT FROM CURE MEDICAL

Cure Dextra® Closed System

NOT made
with DEHP/DINP,
BPA, or NR-Latex

ADVANCE RESEARCH FOR A CURE

Since Cure Medical **donates 10% of net income to medical research** in pursuit of a cure for spinal cord injuries (SCI) and central nervous system disorders (CNS/D), use of the NEW Cure Dextra® Closed System and any Cure Medical product, is as an opportunity to advance research toward a cure.

ADVANCED BENEFITS

The innovative Cure Dextra is an upgrade to a traditional cath-in-a-bag closed system. It features polished eyelets on a pre-lubricated catheter tip with integrated 1000 ml collection bag. Additionally, like all Cure Medical products, the Cure Dextra is not made with DEHP/DINP*, BPA, or natural rubber latex. All users, including individuals seeking greater independence due to limited dexterity, will want to give the Cure Dextra a try. Unique attributes make the Cure Dextra easy to use:

- A **Support Band** enables controlled use without the need to grip the device with two hands.
- **Tip Advancing Technology** moves the catheter out of the bag and into the body without contact.
- A **Gripper Arrow** makes it easy to advance the catheter with each full forward stroke. The catheter does not retract with the full back stroke.

ADVANCE YOURSELF WITH THE CURE DEXTRA®

To request free samples of the Cure Dextra Closed System or any Cure Medical catheter, contact your local distributor of quality healthcare products or visit www.curemedical.com.
