

We've always got time to talk

Call us at **1-800-422-8811**,
Monday–Friday
8:30am–7:00pm EST.

Our live experts are on hand with answers, advice and information – or simply for a reassuring chat.

Professional advice: our online video FAQ may help to answer some of your users' questions and concerns.

Medicare at a glance*

Medicare will cover one catheter for each cathing episode (up to a maximum of 200 catheters per month). Users receive a sterile catheter with a packet of lubricant for each time they cath.

Version	French Size	Quantity Per Unit	Order Code

GentleCath™ Glide
that's a relief

GentleCath™ Glide
that's a relief

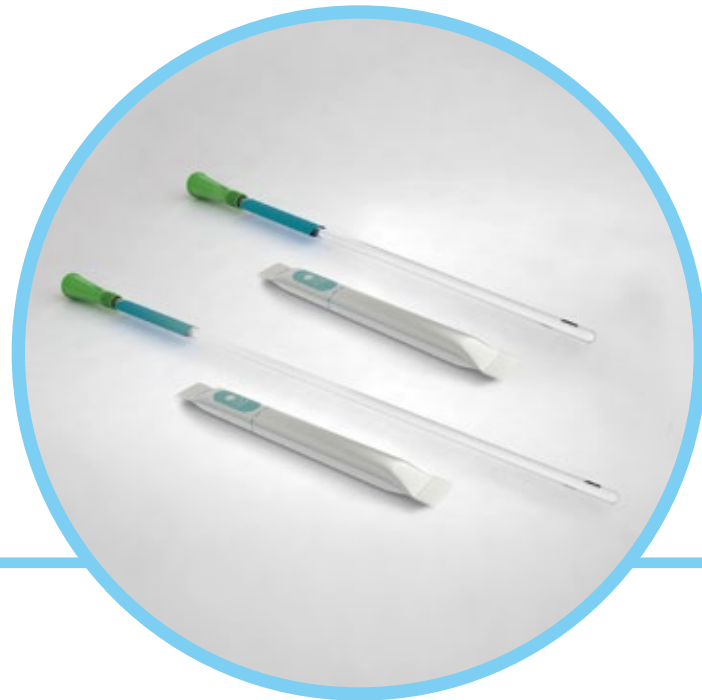

Designed for fast* and convenient cathing

* No additional waiting time once the catheter has been wetted

GentleCath™

Peace of mind for you and your users

For some people, starting intermittent catheterization – or ‘cathing’ – can be a cause of concern and anxiety. The GentleCath™ product range and support tools are designed to make this transition as smooth as possible, at every stage.

GentleCath™ me+™

GentleCath™ me+™ is a service designed to provide users with everything they need to gain relief from the worries associated with cathing.

Personalized instructions: users can find customized instructions on how to use GentleCath™ Glide on the GentleCath™ me™ website.

Introducing GentleCath™ Glide

As leaders in continence care for over 40 years, we are constantly looking for ways to improve our users’ experience.

GentleCath™ Glide is designed to make cathing as simple and convenient as possible.

Smooth, slippery surface

Feature: a low friction hydrophilic catheter

The smooth, slippery surface is designed to make cathing easier.

Less mess

Feature: FeelClean™ technology

The catheter is made with our unique technology designed to reduce the mess left behind by cathing, so users can worry less about getting residue on their clothes, hands and body.

Enabling better hygiene

Feature: a no-touch sleeve

GentleCath™ Glide has a no-touch handling sleeve to help prevent contamination of the catheter with bacteria from the hands.^{1,2}

Speed and discretion

Feature: quick preparation

GentleCath™ Glide is ready to use with no unnecessary delay. Users can start cathing as soon as they break the water sachet and wet the length of the catheter – so it can be used quickly and discreetly.

Not made with DEHP

The GentleCath™ Glide catheter is made without the use of DEHP.*

*DEHP (di(2-ethylhexyl)phthalate) is used to soften PVC plastic and is suspected to reduce fertility.

*User experience
and concerns are
at the heart of our
product design, and
always will be.*
